By Cable to THE SENTINEL.
St. Petersburg, April 24.—At the navy yards at least ten thousand workmen are laboring night and day, at night by electric light, putting the fleet on a war footing. Two iron clads, each of which is a match for British vessels of the devastation class, will be ready for sea early in the summer. They are over 8,000 tons, of fourteen inch armor, and will each carry fourteen guns of twelve and nine inch calibre, and 100 torpedo boats ready for active service in the Baltic fleet.

LONDON, April 24.—The Standard says: "The extreme tension in the relations between England and Russia continue, but as yet there has been no absolute diplomatic rupture."

Floods in Kansas.

By Telegram to THE SENTINEL.

St. Louis, April 23.—Dispatches state that the storm extended into Western Missouri and that many streams have overflowed their banks; that much property has been destroyed and that the railroad-traveling that section have been washed away in places and traffic is greatly interrupted. Advice also comes from Northern Texas noting a very heavy rainfall, extending over a large section of country, embracing Denison, Gainesville, Abilene, Fort Worth, Dallas and other places. At Gainesville, Pecan and Elm creeks overflowed their banks and levels washing away much property. Several lives were lost. Women and children clung to the branches of the trees for hours before they were rescued, and in some cases whole families were swept away in their houses, but in most instances they were rescued. Several streets in Dallas were deluged with high water and a heavy wind damaged a number of houses. The Red river is very high and at last accounts was rising rapidly, and great damage along its banks is apprehended.

WICHITA, Kan., April 23.—Further Eagle's special from Medicine Lodge gives additional details of the awful calamity of day before yesterday. The search for the bodies was continued early yesterday morning. The remaining bodies of the Maddux family, who were among the campers, the mother and her two children, making six recovered at that point. Maddux himself and two children escaped. Jerry Gibbs' body was also recovered. The body of a young man named Smith was also found. Frank H. Epler's wife and children, whom he left on a drifting house, have not been found. Ten bodies had been recovered at the lodge and four above the town at the time of filing the dispatch, making fourteen in all.

MEXIA, Tex., April 23.—Further particulars from Prairie Grove says that one person was killed by yesterday's cyclone. The fourteen-year-old daughter of J. R. Sawyer, Mrs. John Gentry, one daughter of E. Horning and Kate O'Hara are thought to be fatally injured.

WILLIAMSTOWN, N. J., April 23.—The forest fires near this place, which were supposed to have burned out for lack of material on Tuesday, sprang up again yesterday and spread towards this town, which for a time was in danger. All the inhabitants turned out and fought the flames by back-firing.

Mr. CARMEL, Pa., April 23.—Within the past forty-eight hours thousands of feet of valuable lumber have been destroyed in the pine forests through this region. Dense volumes of smoke are now ascending, and unless rain immediately falls, the fire will reach more valuable tracts north.

Atco, N. J., April 23.—Since the smoldering remains of the recent forest fire between this place and Cedar Brook, have so far extinguished that they may be traversed over, the extent of the damage done has been found to far exceed what it was first supposed to be. The damage done is estimated at \$80,000.

FINED BY MORPHINE.

General Grant Unable to Secure Needed Rest.

By Telegram to THE SENTINEL.

NEW YORK, April 24.—General Grant did not go to his room from the library, where the family and ex-Governor Stanford were, until 11 o'clock last night. Being somewhat fatigued with his exercise during the day, and his mind being still occupied with subjects of the family chat during the evening, the general was wakeful until about 1 o'clock, when he fell asleep and slept until 5 o'clock, less than the usual amount. Morphine was administered during the night. It is probable the general and family will spend the month of July at or near Saratoga and August will be passed at the Catskills.

OUT AGAIN.

General Grant went out at 12 o'clock for his drive, accompanied by U. S. Grant, Jr., Mrs. General Grant and Mrs. Dent.

HIS CONDITION.

The following are extracts from the advance sheets of the Medical Record of April 25 on the condition of General Grant:

"The physical condition of General Grant has markedly improved during the past week. There is no authority for the statement that his physicians at any time prognosticated speedy death, or did not give the most encouraging reports of the patient's progress. In fact it has been charged that the physicians were suppressing all reference to the graver symptoms. The bulletins which have been issued at the request of the family of General Grant, and in answer to the incessant demands of the press, have been simply bare statements of the exact conditions at the time, without any theories or comments. The medical staff has always maintained that the amount of the general's constitutional depression was out of all proportion to the extent of the local disease; that the latter would not of itself be the cause of his death unless by an accidental erosion of a large artery or possible strangulation from a sudden separation of the slough. At one time only did death seem imminent from general exhaustion and threatened the heart and, but for timely assistance would probably have occurred. The general has never been in danger from choking. The only hemorrhage which occurred, was of slight extent and ceased itself. General Grant is now stronger, and his physicians are neither dumb-founded nor surprised. It was what might have been expected, and all the treatment has been directed to that end.

The slough has nearly entirely separated from the throat and so far the source of immediate danger has been removed, but the throat disease is still there, although for the present it is apparently quiescent. There is cer-

tainly nothing in all the diagnosis of the case nor has there been the slightest disagreement in regard to the management of the case. A microscopic examination of the specimen removed from General Grant's throat has declared the disease to be epithelioma.

The Knights of Labor held a meeting last night and received fifty new members. Lawyers, bankers, liquor dealers and gamblers are excluded from membership by the constitution of the wage workers.

With a view of curtailing expenses during the dull business, the Wabash road masters have issued instructions to all the section foremen between Tilton and Andrews to have each of their men "lay off" one day each week.

Your Good Wife, Sir.

The best treasure a man can possess is a good wife. He who has such a treasure ought to do his very best to keep her in perfect health. Invalid ladies are sometimes great sufferers. Worry and overwork perform marvels of mischief to the most robust of women. Brown's Iron Bitters works wonders of renovation for the pale, the languid and the debilitated.
